\$1,850,000

Wallis Street in Anglesea is very popular and loved by its residents because of its sheltered sunny location, its east facing ocean views and its direct access to Anglesea main beach via a walkway at the end of the street. 3 Wallis Street takes full advantage of these features. This 6 bedroom much loved, classic beach house has provided so many great family holidays to the current owners and now there is an opportunity for new owners to start their Anglesea journey. The residence enjoys great appeal with a large open plan living area opening onto a substantial covered verandah that takes in the views to Point Addis. As the residence faces east and therefore out of the wind, this space can be used year round. With three bedrooms on each level, plus a second living area on the lower level that doubles as a bunk room there is ample accommodation for family, friends and even friends of friends! The residence is set on a substantial 809sqm allotment and everything is immaculately presented. Other features include split system air-conditioning, 6.6kw solar system and large lock up garage. If you are looking for a property with soul and built in happiness, where the extended family can relax on the coast in a brilliant position, then this is the one.
