Daniel Lambert of First National Real Estate Dapto proudly presents to the market this tidy single level home. Offering a versatile living arrangement, the garage has been converted into two bedrooms, making a genuine five bedroom home. There is additional storage in the rear yard and undercover carport which used to be a drive through from the garage, perhaps you wish to convert it back to a tandem garage for the toys and storage. Fully fenced from front to back you can keep the pets in the front or the back. Also including plenty of off street parking, room for the boat or caravan. Zoned Medium Density, this is a level 556m² block, there is future development potential and is currently tenanted at \$550 per week on an expired lease, the tenants would be happy to stay. This property provides appealing lifestyle opportunities, only a short walk to Lake Illawarra foreshore, exercise paths, fishing parks and playgrounds. Make an online enquiry to receive further information and be sure to attend the first open house.
