Nestled within the picturesque landscapes of Razorback, stands as a stunning testament to the harmonious fusion of classic country charm and modern sophistication. Known as the "Old Razorback Farm," this circa 1890 acreage/semi-rural property is a veritable haven for families seeking the serenity of rural life without sacrificing the comforts of contemporary living, or for city buyers in pursuit of the ultimate weekend escape just an hour from Sydney CBD. This sprawling estate encompasses 2 ha (5 acres) of lush grounds, offering a rare level of privacy and space. The grand residence boasts seven well-appointed bedrooms and four luxurious bathrooms, each designed with a meticulous eye for detail, including heated flooring for those cooler mornings. Original timber floors flow seamlessly throughout the home, evoking a sense of history and warmth. With a multitude of living and entertaining zones, there's a perfect space for every member of the family. The main house features a rumpus room, which easily doubles as a guest or teenage accommodation, and a billiard room complete with a wet bar and open fire, ensuring year-round enjoyment. Multiple outdoor areas cater to seasonal entertaining, from sun-drenched verandahs to sheltered alcoves. The original dairy has been converted to provide a separate two-bedroom cottage that offers additional accommodation, ideal for extended family or guests. The property also includes a mineral heated pool, a shed with and workshop, two dams, a horse paddock, and meticulously landscaped gardens that complete the idyllic setting. Old Razorback Farm is more than just a residence; it's a lifestyle opportunity, perfect for the large family or a sublime weekender. This is where style meets functionality, creating a rural retreat that promises a lifetime of treasured memories.
