Upon entering you are impressed by size of the open plan living and beautiful timber flooring. This will be a comfortable space to come home to. The kitchen overlooks the verandah giving an appealing view for the chef of the family. Excellent bench space and cupboard storage and with a stand out black and white theme to give the ultimate finishing touch. The master bedroom complete with split system air conditioning, a mirror door to built-in robe has the ensuite close by and separate for that added touch of luxury. The light and airy main bathroom boasts tiled flooring, glassed shower cubicle, plunge bath, linen cupboard and vanity unit between with large mirror above and toilet located nearby for convenience. The light paint theme throughout makes everything bright and impressive. Tiled flooring to wet areas with timber flooring to complete the remainder for another attractive feature. Air conditioned built-in bedrooms, large storage cupboards in the dining area plus internal laundry completes inside. Stepping from the internal laundry to the side yard concrete path provides ease of access to the backyard. Colorbond fencing to back yard, garden shed for storage with large carport and full driveway with pathway to front stairs complete the picture at this contemporary family home.
