A stunning apartment with the most desirable aspect is now available. Located in the Horizon on the Harbour complex the apartment is positioned in the eastern building. Immediately adjacent to the Steel Street green reserve and on the eastern corner. Simply amazing broad harbour views and superb deep balconies that are linked. Views from the living room and kitchen, views from all three bedrooms and of course both balconies. The comfort of ducted air conditioning and double glazing, integrated kitchen with Miele appliances and timber floors in living areas. All of this with the harbour some ten metres away and the north east breeze every day. The development amenities include a gym, bike room and residents lounge on the top floor of the middle building. Two car parallel parking spaces with storage cages behind. A must to visit.
