Just metres from the heart of Hastings, this reimagined 2-bedroom, 2-bathroom villa offers a turnkey lifestyle opportunity like no other. Its open-concept interior is dressed in superior finishes, with sophisticated touches simplifying everyday life for the perfect mix of style and ease. Beautiful established gardens envelop the home, immersing its reimagined open-plan design in an idyllic and peaceful privacy. Timber hybrid floors stretch through its vast living and dining zones, linking effortlessly with a paved patio amongst the same stunning gardens. The stone-look kitchen takes centre stage with its suite of stainless steel appliances, including a cooktop and oven within its central island for socially-focused cooking and entertaining. Designer style flourishes through the fitted laundry, powder room and bathroom serving the two bedrooms, each with recessed and fitted robes for that extra touch of luxury. The extended main bedroom takes things further, featuring its own walk-through robe and designer ensuite. Beyond the interior, a vegetable garden and intelligent storage area wrap around to a single enclosed carport with a unique utility space. Comfort is paramount with air conditioning, gas heating, and ceiling fans throughout, ensuring a pleasant ambience year-round just metres from Hastings High Street shopping precinct, where the village streetscape of boutiques and cafes fronts a complete range of department and grocery stores, a short walk from the foreshore, marina, and Warringine Creek walking trails.
