One of Bronte Road's most stately residences, this grand freestanding 1890s home stands proud as a fine example of Victorian Italianate architecture. Magnificent in both proportion and appeal, this two storey residence is set back from the road on a deep dual access block with sweeping northerly views to the ocean from the upper level. Showcasing refined period craftsmanship and featuring both a family friendly and entertainer's layout, the four bedroom home opens out to a landscaped courtyard with rear access to a double garage. Enjoy a carefree lifestyle, footsteps to cafes, boutiques and delis and walking distance to Bronte Beach, schools and Queens Park.
