\$899,000

Seamlessly blending refined elegance with modern-day luxuries this home has a stunning traditional street presence, large gracious bedrooms, modern light-filled casual living spaces, and rear lane access to a double lock-up garage. With an enviable position, this level 995m² block is great for kids and family living or could suit downsizers looking to move into town. This private and peaceful sanctuary is in a class of its own in this premier blue-ribbon address. Close to shops, medical facilities, the picturesque Bega river walking track, the Steiner school and virtually everything you need this home will capture your heart and is all you could wish for if you are looking for a beautiful home in Bega. This north-facing home gives you four large bedrooms with high ceilings typical of the era in which it was built. A modern open plan addition of a lounge room that takes the greenery of the backyard, a spacious dining area, and a generous country-style kitchen with a central island bench give the best of both worlds with that added extra dimension of old-world charm and modern living convenience. On entering the home the grand central hallway with an ornate feature archway and wide polished timber floorboards greet you with all four bedrooms on either side of the hallway. A commercial-grade split system will keep you warm in winter and nice and cool in summer and a centrally located log fire heater is sure to please you too. In the backyard, you have a big undercover entertaining area overlooking veggie gardens, a chook pen, and a shed attached to an older-style carport which could be easily converted into a hobby room or an art studio. Town power, town water, and sewer are connected as well as eight back-to-the-grid solar panels. Council rates approx. \$3,000 pa LOT 1 DP734128
