The joy of living around The Swan Valley is that you surround yourself with nature, yet are on the doorstep to city living. This 5.4 Acre property has views to infinity, looking out across the valley to the coast. You immerse yourself in the bush, with the Kangaroos and the song of the local birds. Once you leave the suburban life behind, you will wish you had done it sooner. A modern 4-Bed, 3-Bath home with multiple living areas which all have stunning views across the hills and valley. The 4th bedroom is almost a self contained living space, so you have a separate entrance and individual car parking - this is the ideal set up for multi-generational living. For those who want a workshop, there is a high roof 7m x 17m shed with direct drive access. This designer home has been built to make sure that every room has views, plenty of light and that you will feel like you are truly at peace with nature. It is a very unique home, that is nestled into the side of the hill. It is a brilliant vantage point and the perfect base for your family. Come and explore. Meet the Baileys. Dean & Jen 0403360900
