Built in 2003, this brick home was designed with accessibility and ease of use in mind. A spacious open lounge area with lots of glass takes in the established gardens which also create privacy and the large, fenced backyard provides ample room for kids, pets or just enjoy the space around you. 2 generous bedrooms, a covered back patio and a big garage with carport provide lots of room for storage and an additional carport by the front door gives under cover access to the house. Situated on a 1004sqm block just 750m to the sand of Mystery Bay Beach this home is the perfect escape from the rat race.
