A wonderful opportunity to invest in the desirable Meander Valley. Approximately 45 minutes from the major city of Launceston and 15 minutes from the thriving township of Deloraine. Bounding the Meander River, the property has a generous 172ML water right from the Meander Irrigation Scheme. The property has 2 titles a mostly level contour and underground mains for irrigation. Improvements include a 3 bedroom weatherboard home, stockyards and outbuildings. This property is presently producing prime lambs and has grown vegetables in the past, it would also be well suited to beef or dairy support. The Meander Valley is one of Tasmania's most progressive farming communities and investing in a property such as this, is sure to bring long term gains. Call Tony today for an inspection.
