Situated close to the Wallan Leisure centre and a short walk to Hadfield park, your kids will be able to go to weekend sport without you needing to drive them!. Ideally this home will suit someone looking to do a renovation project as the home is in original condition and will need a person to roll up their sleeves to make it their own. The owners of this home have lived there long enough to see Wallan grow into the thriving suburb it is today, but it is time to let the family home go and let someone else build their own memories. If you are looking to make your own mark on a property, then this one may be for you!
