Tucked away in a peaceful no through pocket, this charm filled early 1900's semi promotes an appealing way of life. A traditional front porch with built in seating leads the way into a light filled single level floorplan full of style and period allure. The home presents two living zones including a lounge room with an original fireplace and opens out to a large covered terrace and level lawn area. Both the bedrooms are spacious with the master displaying leadlight windows and picture rails. Sitting pretty with a single carport, bus services, Cammeray's popular dining and shopping scene and Cammeray Public School are all within walking distance and it's just minutes to the city.
