\$3,400,000 - \$3,700,000

Exclusively situated in one of Kew's most coveted locations, this spacious, single-level, four bedroom plus study home is a lavish alfresco family entertainer set on a wonderfully elevated allotment of 848 square metres (approx.) with outstanding scope to rebuild a contemporary family classic with possible city views (STCA). Nestled between the pristine beauty of the Yarra Boulevard and the cosmopolitan vibrancy of Kew Junction, 'Yarra Yarra' merges a relaxing poolside lifestyle for today with the opportunity to craft something spectacular tomorrow. Set behind attractive established gardens and introduced via a broad front veranda, the home flows through its grand central corridor to an open-plan rear where granite kitchen benches are complemented by a suite of the very finest Miele, Neff and Qasair appliances. Seamlessly, the flow continues outdoors to a paved entertaining area that is partially set under a retractable awning, but it is the in-ground swimming pool and the spa that are the centre of attention. A huge dining room with semi-attached lounge have been appointed with custom built-in joinery in this home where the main bedroom offers walk-in robes and an ensuite with a heated towel rail. Further highlights include built-in robe and desks in two of the bedrooms, front parking for two vehicles, hydronic heating and air conditioning, as well as a security alarm and CCTV surveillance. Merely moments from the refined cafes, premium dining, bars and abundant shopping of the Junction, this is a prestigious position that allows you to walk to endless Yarra trails and city-bound buses, whilst so many of Melbourne's most elite private schools can be accessed easily.
