\$900,000 - \$950,000

Those of you that understand the wonderful lifestyle and location that a Wyndham Harbour home has to offer, get it, and yet trust us, those of you that haven't found this will only have wished they did sooner...it is literally all that! In this case of 33 Masthead Way, Werribee South, it's likely that the photos and even our property video don't do justice the home and surrounding lifestyle this home is nestled within. Hence, we'd suggest if you're reading this, you may just want to get down here and check this out for yourself! Why you ask? Well, starting with a super family friendly plan and as generous list of quality appointments, the gorgeous façade comprising of select brickwork and rendered masonry set amongst established gardens finished with an aggregate driveway are just the start. Stepping inside, a grand entrance remains formal and leads past the separate lounge and further onto the open plan everyday living comprising of a family room, adjoining meals and overlooked by the hostess kitchen complete with stone benchtops, upgraded stainless cooking facilities, a dishwasher and even a sparse walk in pantry. With four generous bedrooms, the master suite not only being larger than a single garage entails a private ensuite and walk in robes, with the remaining bedrooms serviced by a convenient central bathroom. The third living room, while located upstairs is privy to some of the best views on offer further highlighted when stepping on to the balcony through the combination stacker doors. Further touches include an alfresco for entertaining within a low maintenance yard, ducted heating and cooling systems, powder room, double remote and internal access garage, and powered roller shutters. You are within a brisk walk to the marina, the swimming beach and Quey Boulevard where you will find restaurants and other specialty shops, yet almost adjacent the main park area incorporating the estate basketball and tennis courts, not with standing the Wyndham Harbour gymnasium also being close at hand. Get amongst it all whilst remembering that this is home where you can also soak up the beach home lifestyle where rolling meadows finish on a sandy shoreline. How's that for way to describe where you live hey!
