Renovated throughout and filled with all day sunlight, this charming home strikes a graceful balance between modern comfort and period character. Framed by vibrant box hedges, an enticing Edwardian façade preludes a sumptuous interior, with towering ceilings, a wide hallway, and northern orientation accentuating the home's signature sense of light and space. Three considerable bedrooms are serviced by extensive robe storage, while an exceedingly functional bathroom features an individual bath and shower, separate powder room, and laundry facilities. A stunning main area features brilliant voids and high set windows, with bifolds merging a substantial living/dining area and low maintenance, north facing yard. Upscale appliances adorn a storage rich kitchen, while a log fireplace to living makes for cosy evenings come cooler months. With other highlights including hydronic heating, reverse cycle heating/cooling, hardwood floors, ceiling fans, an alarm, and secure rear parking via Little Kent Street, it's steps from Bridge Road boutiques and eateries, Citizens Park, Richmond Traders, Gleadell Street Market, respected schools, and city trams.
