\$480,000

Located walking distance to primary and secondary schools, this 3 bedroom home has undergone a recent transformation from top to bottom and inside and out! Oozing modern tones throughout, the house has been rewired, replumbed, new roof installed, 4 year old vinyl cladding, replastered, repainted, fully insulated, new blinds and partial double glazing. Move in ready - the home is better than brand new and is light and spacious. Entrance to the home is via the original double doors where you are immediately taken in by the high ceilings. The open kitchen/dining and lounge is a quality renovation with expansive island bench, soft closing doors, quality appliances, new floating floors and reverse cycle. All 3 bedrooms are spacious and host new carpet with the main leading to the brand new ensuite. The fully restored main bathroom has dual access and leads to the 3rd bedroom which also has a walk in robe. The clever layout of the bathrooms allows for two families to easily have their own privacy and space if you are considering this property as a holiday home. Access to the raised decking and undercover area is directly from the kitchen via the new double glazed doors. A re-cladded shed with concrete floor, remote access, new lighting, workshop and pot belly is easily accessible due to the wide driveway and new gates. Modern garden beds and recently reseeded lawn are all on hand in this immaculate and completed home. This home is well and truly worth a look.
