\$1,700,000

In a location that even many locals don't know exists hides this secluded 10 acre lifestyle farmlet just on the outskirts of town. Boasting almost 1/2 a kilometre of creek frontage including your own bridge over the creek as you enter the property and a mixture of natural bush and cleared areas. This farmlet is ideal for those who are seeking the privacy of acreage without all the maintenance! A classic Australian homestead with full length verandahs to waste the days away reading a book or just relaxing and an interior as modern as any home on the market. Fully renovated with features such as cathedral ceilings in the main living area, butlers pantry in the kitchen, separate formal living area for those dinner parties or theatre gaming room, 2 wood heaters, ducted heating and considerable storage in and under the house. Outside there is a large pergola to link the house with the inground pool making the perfect setting for those summer BBQ's. Just beyond the pool area is a fully self contained 2 bedroom unit for parents or adult children! Further beyond the pool is the shed. Ideal for the car enthusiast with dual entry and room for a hoist or 2. Attached is also a 40" container for storage of all those car parts you will need one day that you can't buy anymore! There is a 2-3 acre paddock (approx) that can be fenced for a horse or just use as your own campground right next to the creek. Forget spending \$100k plus on a caravan you will use less than 20 days a year, you don't need to travel to remote areas to enjoy the great outdoors when you have it at home! There is even an old 4WD track that could be resurrected! Fun for the whole family and nothing to do! Fully renovated - just bring your furniture and move on in and start enjoying!! Inspections by registration only.
