This exquisite property boasts four bedrooms, two bathrooms, and a double-car garage on paper, but there is so much more to appreciate about this home that can only be witnessed in person. The grand entrance, adorned with travertine tiles, sets the tone for the high-class living that awaits within. A custom, exposed aggregate driveway leads to a home surrounded by extensive structural landscaping. Every detail of this residence has been carefully considered, from the custom flooring to the top-class fixtures and fittings. As you step inside, light, space, and class greet you at every turn. The high ceilings and doors, coupled with a cleverly designed floor plan, provide an extra dimension to the entire home. The meticulous planning ensures a seamless flow, with the movement of light and breeze enhancing the already beautiful climate of the Northern Rivers. From the taps to the tiles, the flooring and lighting, each element has been chosen with utmost care and consideration. Obviously, a home of this calibre is not complete without zoned, ducted air conditioning and solar power. Step outside to the covered outdoor area - an inviting space where family and friends eagerly await an invitation. The backyard, precisely planned, offers ample space for a potential swimming pool while still providing enough space to kick a ball or set up a swing set. Situated in a quiet, newly developed estate with convenience in mind, this property is set to be one of the hottest listings of 2024. Imagine trying to replace this almost new home in the current climate, the time, effort and energy put into this stunning property is obvious, be sure to act quickly, this is a very rare opportunity.
