Located in close proximity to Kyabram this perfect small farm is awaiting it's next owner. 340 Matheson Road is approximately 26 hectares or 66 acres of prime soils with shedding and "weekender" style accommodation. Electricity is connected to the property as is stock and domestic water through a pressure pump and several stock troughs. The property is suited to livestock, horses, cropping, hay production, viticulture and provides some peace and tranquillity without being isolated. 340 Matheson road is situated midway between Echuca and Shepparton on a quiet country road just 6 kilometres from Kyabram. 340 Matheson Road provides a real opportunity to own your own hobby farm as the current owners are looking to retire.
