\$120,000

This 4 bedroom, 1 bathroom house is older style but very comfortable and is in decent condition. With good sized kitchen, separate dining and separate living areas this property has a lot to offer. Colourful painted walls give life to this home and a lovely feel. All bedrooms are carpeted and polished wooden floors in living and hallway. This is a perfect house for a family, being in prime position close to shops and school. It also offers good sized carport and long driveway allowing for another vehicle to park behind. Carpets do need to be replaced as they are very worn, the price reflects this.
