We definitely recommend this lovely 4 bedroom family home for its position just a short walk to shops as well as being in a quiet cul-d-sac. Not only the position, but the view out over open paddocks to the east is something quite special. Solidly constructed in the era of hardwood framing the presentation is second to none. All bedrooms have built-ins, there's 2 toilets, 2 showers, little features like pantry, brekkie bar and rangehood add to the functionality, as well as a lovely slow combustion fire. This home is bright, airy and a delight to inspect. The price is right too at just \$889,000. Call Mark for inspections.
