Offers Over \$425,000

Bringing to the market, this low-set Californian style bungalow on 12 acres is just perfect for those looking for the small country acreage lifestyle. With the most scenic views to be had anywhere on the Darling Downs, this one is a must to inspect. The colorbond home is fully insulated in both walls and ceiling, so with the flow through breezes captured from this elevated position, and the wood fireplace, you can be assured that you will be comfortable in this home all year round. The property is fully fenced with stock proof solid fencing, just perfect for the horse owner or someone wanting to run a few head of cattle. A lock up garage and bonus 3 sheds mean car accommodation plus plenty of storage room. The working bore with storage tank, coupled with the seasonal dam ensures there is plenty of water for your animals. And the bitumen road running past the home ensures very little dust that you would normally have to content with on an acreage property. A rare find. If this ticks your boxes, don't hesitate to contact me for more information as it won't be available for long. I am always contactable on my mobile 0433 191 001 or my email helen.king@nh.com.au Look forward to perhaps hearing from you soon.
