Discover Zara Springs-a 140-acre masterpiece of sustainable living set amidst stunning views, natural springs, and a serene lake. Nestled within are unique koala corridors, a flourishing manuka honey plantation, and citrus groves. As you enter, you're welcomed by a newly renovated century-old farmhouse overlooking a water-lily adorned lake. The heart of the estate, the Top House, melds luxury with eco-consciousness. Built from hempcrete, wood, and glass, its panoramic views span the property, reaching the captivating Springbrook escarpment. This modern haven houses three distinct buildings, including a central culinary hub with top-tier appliances and three spacious bedrooms-one with an opulent egg-shaped bath by a floor-to-ceiling window. Adding to the charm is a magical yurt, equipped with solar power, offering a serene retreat with views of Bald Mountain and Wollumbin. Ideal for solitude or hosting workshops. At Zara Springs, sustainability is paramount. Powered off-grid, with a 12KVA solar panel bank and lead-acid batteries, it's the epitome of modern eco-living. Dive into this rural escapade, where Zara Springs awaits to turn dreams into reality.
