**\$625,000**

A great mix of quality inclusions and a tasteful colour scheme here in this fantastic family home. The thoughtful top to bottom renovation features 3 bedrooms (all with new built-in wardrobes); open plan living and dining area with log fire and split system A/C; brand new kitchen; brand new bathroom with freestanding bath; and a front sunroom/TV room. There are new floorcoverings and blinds throughout and a 2.2 kW solar energy system will help with the power bills. A covered rear entertainment area takes advantage of afternoon shade and there is front access to a double garage and workshop. The generous 796 square metre block also has a rear street frontage. A well priced option for the family buyer.
