Exceptional in layout, locale and rich use of warm natural materials, this four bedroom plus study home features a distinctive interior and sparkling swimming pool. Introduced by a bluestone wall and walkway, the extraordinary abode is adorned with leadlight and has been tightly held by one family for decades. Graced with a largely open layout, it soars to a cathedral ceiling above a stunning spiral staircase. Blending timber panelling with exposed brick walls, it's open to your vision for updates and enhancements. A family zone with fireplace, sitting area, dining domain and kitchen/meals are complemented by northerly outdoor entertaining areas beside the large, salt-chlorinated pool. Linked by a bluestone double garage and pedestrian gate to Thompson Reserve, the property has heating/cooling, with secure access and dual access at front and rear and a healthy allotment of approximately 509m². A stroll through the park to trams on lively Keilor Road, close to schools, it's ideally situated within a short walk of North Essendon Village shops and cafes.
