## Contact agent

A fantastic opportunity exists to dive into the realm of building your dream home. Secure this opportunity and get the ball rolling with a builder to design and build the home by the seaside. Brighton attracts some of the most lavish of homes to be built and this is no exception. One street back from the water and with exceptional views from a second level, the style of home to build will truly impress. With a 10m Frontage and 51m long there is room to create the larger home to keep everyone happy. Currently fenced for security reasons please don't hesitate to contact me for plans and specs of the land.
