\$340,000

The three bedroom property features landscaped surrounds ready for you to plant your favourite drought tolerant, tropical gardens designed with tranquillity in mind. The large alfresco dining area at the rear overlooks pathways, which meander through to the seating area and storage container at the bottom of the garden. Heading inside the home, the air conditioned, open plan kitchen and living area opens out on to multiple outdoor seating areas. The kitchen is well appointed with all of the standard appliances. Walking through the living area you will find the family bathroom, including shower over plunge and a double vanity, servicing the three good-size bedrooms positioned at the front of the property. External awnings ensure privacy without sacrificing listening to the sound of the waves and harnessing those cool coastal breezes. The home also has a utility room off the rear patio which could serve a myriad of purposes. The front of the property enables vehicle access to the single carport at the side of the house. Set on a fully fenced, 1012 square metre allotment and backing on to state forest, this property is priced to sell and is truly a must see!
