Nestled in the picturesque valley above the villages of Dyraaba & Doubtful Creek sits this sweet, 60 acre weekend getaway with so very much to offer! Featuring 5 dams of which 3 are spring fed & a 1500 gallon an hour bore, there will never be an issue with water shortage and the new concrete post and barbed wire internal fencing with a lane leading to a near new set of steel panel yards with vet crush and machinery shed simplifies all processes. With the ability to carry up to 20 cows or 40 weaners due to a full fertiliser history, this little gem has nothing left to do but bring the poddies and the caravan and settle in for your perfect little hideaway.
