Absolutely adorable, this beautiful cottage holds a very impressive street presence. The original façade is so rare to come by and framed by a stunning fence. It is impossible to not fall in love. On a leafy allotment with plenty of established trees the cottage has been fully renovated and offers large rooms, high ceilings, beautiful floor coverings and light fittings. The bathroom is beautiful and features a walk in shower and large freestanding bath for end of day relaxation. The brand new kitchen is just gorgeous and features and has so much bench space and storage, pleasing any cook. The parcel of land is beautiful and comes with a current planning permit to subdivide into two lots which makes this property very versatile and an astute investment. Plenty of charm and so much to love we are extremely excited to present this adorable home to market.
