This stunning property is anchored on the banks of the Taylors Arm River and only minutes from the town centre and is a real stunner. The back boundary laps the high tide mark and creates an instant holiday lifestyle. The charm has been kept in the renovated federation style home with 3 bedrooms, 2 bathrooms, stunning timber floors, wide hallways, picture rail walls, well appointed kitchen, walk in pantry, lounge and dining areas and the list goes on. While the focus is on the home the real wow factor is in the location and external features. There are 2 entertaining areas, pool undercover deck, your own boat ramp, an enormous carport and a boat house that could be nearly used as a second cottage for the guests and family. This is a paradise for the boaties, fisho's and skiers alike. This is the perfect package for the investor, owner occupier, first home buyer or would make a prime AIRBNB. Whether you are a mad keen angler, dedicated boatie or just want an idyllic lifestyle then you cant beat this. Stand on the deck or look out the window to be enchanted by the river run and the magic of water. This should be a natural choice, water front living just doesn't get any better than this.
