The double brick and tile construction and full concrete driveway not only makes this complex of 4 two bedroom flats low maintenance, but upgrades are also economical if required. Each flat comprises 2 bedrooms, built-in wardrobes and a combined living area with easy ground floor access. Long-term tenants are in place providing an excellent return. A common laundry provides facilities for each flat, while individual carport spaces are also available. The elevated, central location is handy to both a suburban shopping centre and the city centre while the well-fenced 1,252sqm lot includes approximately 400sqm of vacant land. This is an outstanding property with a solid rental history. Further information is available by contacting Wayne Shultz on 0417 353 011.
