\$1,270,000

Set in the proud estate of master painters, this north-east facing address honours the Dutch Golden Age artist Rembrandt. His attention to artistry is captured by number 39's sweeping frontage, and abundant light filtering through statement picture windows. Cherished by long standing owners, the home presents in neat original condition, with updated kitchen appliances and the potential for a stylish refresh of the impressive blueprint. With free-flowing living space that captures the light, and zoned bedrooms in the private outer quarters, families will appreciate this easy living setting. The 650sqms (approx.) block has been landscaped for maximum lifestyle and minimum fuss, with a paved BBQ area behind the garage, and Colorbond fencing creating a secure dog run on one side of the backyard. A remote garage with workshop/studio set up with a sink to give you vision for a home business like a beauty salon or as a hobby room or second kitchen. This is a chance to take your place among the greats, surrounded by parks, shops, schools and transport connections, just a 9min walk (700m) to both Wheelers Hill Shopping Centre and Wheelers Hill Secondary College, with Monash Fwy and Eastlink to take you further afield.
