Located on the edge of Dubbo being 1.3km on a sealed road east of city limits. The property enjoys a building entitlement and a choice of exceptional building sites. Town water has been connected while back bone power runs along Whitewood Road (not connected). The park-like atmosphere with established trees and lucerne pasture is sure to impress. The highly productive rich red loamy soils give you plenty of rural enterprise options. The property has a new boundary fence and entrance. This is a sought after parcel of land in one of the prime locations in Dubbo. A blank canvas for your dream of a Rural Lifestyle. NOTE: If the incoming purchaser does not require either of the two dams, one or both can be filled in at the vendors cost.
