Tucked peacefully towards the rear of the block, this courtyard residence is a spacious sanctuary. Appointed with high quality fittings and adorned with a well curated collection of natural materials and textures alongside spades of natural light through every room, this modern apartment is a breath of fresh air. Behind the secure façade of a boutique block, the home welcomes with wide Oak wood floors that feel solid underfoot and flow through to the living zone. With edge to edge glazing that opens wide for a delightful breeze and some morning sun before spilling onto a courtyard that's paved for ease and lined with verdant plants. Overlooked by a seamless kitchen with a waterfall stone island bench and a full suite of Bosch appliances (gas cooking and dishwasher) as well as warm integrated lighting. The master bedroom is served by a walk in robe through to a hotel-style ensuite with a delightful rainfall shower while a second robed bedroom with its own natural light is served by a matching central bathroom. This tasteful home also features a conveniently placed Euro laundry, RC/AC, elevator access down to a car spot with over bonnet locker storage as well as a full height storage cage in a well looked after block. Take an easy stroll to the Spotlight Centre and Carnegie village for retail, cafes, a buzzing collection of restaurants, library and train. Also an easy walk to the walking trail from Boyd Park and to the numerous parklands along it. We donate a portion of our fee from every property transaction to the Woodards Foundation to support people experiencing homelessness, family violence and social isolation.
