\$420 pw

This property has been lovingly renovated by a caring owner and now it's time for you to enjoy this spacious second floor oasis. This home has been rejuvenated from top to bottom. You'll be impressed with everything you see, from the custom kitchen with quality appliances, which opens to the modern living room with floating floors and split system heating and cooling; to the luxury bathroom with over sized walk-in shower and a space for your washing machine; to the two well-proportioned, light filled bedrooms, each with fitted built in robes. Perfectly located at the rear of this complex with the picturesque walking trails of Kananook Creek and beautiful Frankston Beach at the rear and all that Frankston's busy shopping, eating and transport hub has to offer only minutes' walk away. With a dedicated car space to top it off, this compact home is quite simply the best .
