I am rarely surprised, however walking into this home I was amazed to say the least. The yard alone is the size of a house yard and has direct access to the tennis court and football oval, so great for walking the dog. If that doesn't impress you, walking into the home everything is new plaster, electrical, flooring, windows and new stylish and modern quality fixtures throughout. The bedroom sizes here are massive, and both have built-in robes. The kitchen is a proper kitchen loaded with storage and bench space, you will be amazed. So come and take a look, these are a knockout.
