Entertain the perfect lifestyle with surprising space, designer style and a location that's hard to beat. This renovated, 2-bedroom apartment is privately tucked away yet just steps to Church Street's fashionable shopping and dining precinct, as well as the convenience of Middle Brighton station for an easy commute to the CBD. Beyond its lush gardens and security entrance, this first-floor home has been transformed into a light and luxe sanctuary with a reimagined layout designed for entertaining. A relaxed lounge spills out to a sun-soaked al fresco terrace, while a brilliant bar area, complete with floating gantry shelving, cleverly separates the exceptionally spacious living and dining zones. Natural light abounds throughout the kitchen and dining domain, customised with bench seating and concealed storage, providing a stunning place to gather with family and friends. The kitchen is a master-class in contemporary elegance with its chic black and white tiling, veined Dekton benchtops and brushed brass hardware as well as quality appliances including a dishwasher and pull-out pantry. The generously proportioned main bedroom, with its own robed dressing area and access to a two-way granite vanity bathroom boasting a separate bath, provides a tranquil retreat. A second robed bedroom, custom study space, guest powder room, laundry facilities and ducted heating/cooling contribute to its overall comfort and ease. Beautifully detailed with high ceilings, wall panelling, custom paint work and cabinetry, and wide-board oak flooring, the home is a testament to the discerning taste of its occupants. Leave the car at home in your own remote-controlled garage entered via Lindsay Street and explore the delights of the area on foot. With restaurants, shops, cafes, the cinema, station, parkland and the beach all within easy reach, this is Brighton apartment living at its best.
