Investors will want to look at this one for sure. It's rare to find a quality townhouse with three bedrooms and a huge double garage with internal access in our area, especially in such a convenient location. Last unit on the end of only 4 in the complex means stunning views and privacy, built as 2 sets of duplexes, allowing lots of space between and only one shared wall - these units scream quality. Downstairs is a flowing open plan design. From the front terrace, sliding doors lead through living, dining and kitchen to the spacious backyard and side yard. A beautiful leafy view from the front terrace makes a perfect spot for a cold drink or dinner outdoors. Three bedrooms upstairs are all bright and light with loads of storage, air-conditioning, a great cross breeze and that leafy outlook. Walk to schools, university and just a short drive to shops and Lismore CBD. Perfect for a first home or investment - this property must be inspected to be fully appreciated.
