Designed and styled by Interiors With CG, Townhouse 4 at 5A Bellevue Gardens asserts itself with confident style across a spacious split-level floorplan. Bellevue Gardens establishes a distinct aura of serenity as you pass the dense natural landscape of Cooper Park enroute to your home. The dedicated car spot is adjacent to your residence, which provides direct pedestrian access into the courtyard in addition to the main entrance. The wall of natural sandstone offers a beautiful backdrop to both levels of the property, which is strategically positioned to provide privacy inside from neighbouring residences. While there's scope to extend into a three-bedroom home (STCA), the existing configuration is already appealing in its versatility, providing a bedroom and a study nook on each level. Showcasing a brand-new renovation designed and styled by Interiors With CG, the upper level is exquisitely conceived, integrating designer fixtures for an impressive finish. Requiring low maintenance with very reasonable strata fees in a complex of four, this is simply a superb private haven to enjoy as a primary residence or investment. Treat Cooper Park as your outdoor sanctuary to enjoy the cliff walk and tennis courts and the quick connection to village shops and cafes. Close to Reddam House, Westfield Bondi Junction and the station, it offers easy access to superb beaches and golf courses. - 2 bed | 2 bath 1 car - Direct & level access into the residence- Interiors designed and styled by Interiors With CG - Fabulous indoor/outdoor entertainer- Seamless access from indoors to deck - Island waterfall kitchen, gas stovetop - Downstairs study nook beside kitchen - Upstairs suite also provides study nook - Upstairs upgrade with designer fixtures - Main bathroom with bathtub- Stroll to Blip Café & The Grumpy Baker - Footsteps to Cooper Park's leafy trails & tennis courts
