Price: \$639,000

Tastefully renovated and located in a very quiet street, this beautifully presented three bedroom home offers more than meets the eye. The north eastly lounge room is soaked in sunlight, well complimented by a separate kitchen and dining area. There are built-in wardrobes in all three bedrooms; and the main bathroom has been completely renovated. The garage is supersized being 7m x 4m, complete with drive through access to the huge back yard, big enough to build a completely separate granny flat for extra income (STCA) , or a shed to fit all the weekend projects in. The super sized entertaining deck compliments the house perfectly for all those family catch ups, or possibly enclose it to add to the living space. Lots of options and lots of space.
