Congratulations on taking the first step towards becoming an investor or first home owner! Let me tell you about this amazing four bedroom, two bathroom home that would be perfect for your portfolio or your family. It's important to find a home that has all the features you need while being affordable. This home ticks all the boxes! It has four spacious bedrooms and two bathrooms, providing plenty of space for your growing family or tenant. Plus, the double garage under the main roof means there will always have a secure place to park your cars. One of the best things about this home is the low maintenance landscaped backyard. It's perfect for children to play in and for hosting barbecues with friends and family. And when it gets too hot outside, you can stay cool and comfortable with the split system air conditioning. Inside, you'll love the stylish galley style kitchen with quality appliances. The two living areas provide ample space for your family to relax and unwind, with the family room having direct access to the outdoor entertaining area under the main roof. This means you can host parties and gatherings all year round! Contact Lee today to arrange an inspection and see for yourself what a wonderful opportunity this is!
