Under conditional contract, please contact the agent if you wish to be advised should the contract be unsuccessful or when similar listings become available. This property is located in the leafy outskirts of Palmwoods and has had a comprehensive makeover. Built around the mid 1980's, the house is situated in a quiet street of just 3 houses and sits on a very useable 623m² block with side access. The high set home has a new kitchen, a facelift in the bathroom, a fresh paint job, polished timber floors and new carpet. Sitting on an enclosed block base provides not only a secure single garage but an enormous area for storage, workshop or hobbies. It's just a touch short of legal height but lends itself to as many possibilities as you can imagine, the previous owners ran a business from under the house. In addition there is a single carport for your second car with drive-through access to the generous back yard, plenty of room for that big shed you've been planning. Features we think you'll enjoy: - Freshly polished timber floors throughout, - New carpet in bedrooms and lounge - Renovated kitchen with quality appliances - 3 bedrooms all with ceiling fans and built in robes - Open plan lounge and dining opening to the outdoors - Internal stairs to the ground level of the home - Massive 14m x 4.2m timber entertaining deck - On the Woombye side of Palmwoods for easy commuting - For the gardener there is a bore on the property - In the Woombye State School and Nambour College catchments - 9 minutes to Nambour, 18 minutes to Maroochydore - Close to bus stops, train and Nambour Connection Road. It's getting harder by the day to get a foot into the property market, blocks are getting smaller and smaller leaving little room for kids to be kids, or grow a veggie garden or build a shed to store toys or work from home. The competition is fierce! Come along to one of our scheduled open homes or call to arrange your private inspection time. Property Code: 1458
