Boasting a quality internal & external renovation, a high end fit out, and a desirable location in a quiet residential area, this fantastic family home is move- in ready. The conventional floor plan offers 3 large bedrooms (2 with built-in wardrobes), new modern kitchen with breakfast bar and walk in pantry, modern bathroom with walk- in shower and under floor heating, lounge room, dining room with feature built-in servery, and separate tiled sunroom. The home is kept comfortable year round with a split system A/C and a cosy wood burner. A real bonus is the double garage with workshop, toilet and storage alcove. All set on an easy care fully fenced block. A pleasure to inspect.
