\$790,000

Nestled on an expansive approximately 1000m² level plot with a private internal driveway, this residence has undergone thoughtful renovations by its current owners, including two stunning bathrooms that could grace the pages of a magazine. Designed with entertaining in mind, the layout seamlessly integrates two distinct living areas through a well-appointed kitchen boasting exquisite timber countertops, top-notch appliances, and ample storage including a spacious pantry. Comfort is assured with both a reverse cycle heat pump and a cozy wood heater. Tucked away from the hustle and bustle, the 2nd and 3rd bedrooms with generous built-in wardrobes offer peaceful retreats. The main bathroom exudes style and functionality, featuring a sizable tiled walk-in shower, a deep bath, skylights, and floor-to-ceiling tiles. The master bedroom at the end of the hallway presents a luxurious escape, complete with lavish built-in closets and a convenient walk-through ensuite. The ensuite itself features a walk-in double shower with 'his and hers' shower heads, as well as a double vanity. For added convenience, a powder room at the end of the hall offers a toilet and vanity. Outside, the meticulously landscaped and secure yard boasts mature foliage, with an added touch of luxury in the form of an outdoor bath. And let's not overlook the enormous triple bay garage, totaling approximately 112m², complete with workshop space and a mezzanine level. Parking needs are effortlessly met with a double carport and ample off-street parking available in the driveway.
