Are you looking to the future and would like to be considerate about your impact on the world and feel you are doing your bit to save energy, live sustainably, then please prioritise a personal inspection of this terrific example of sustainable and energy efficient living. Please read below to see everything that this owner has done to minimise her impact on the planet. She has labored with love but also deliberate intent to do her best when minimising the cost to run her home, create a wonderful edible landscape and most of all to have a very comfortable and satisfying life. The home has been insulated in every wall as well as new insulation to the ceiling. Double glazing throughout and most doors in the home are solid core. Double glazing of course and 2 large rain water tanks to irrigate the garden. The owner has really enjoyed the mountain views and lovely sunsets, along with the sense of community shared with neighbors; the playground and park across the road is a real hit with the kids. On a practical level, she has brought her living costs to a very affordable level. The location is super quiet and convenient, you will appreciate being walking distance to the upgraded and community-minded Scullin shops as well as Hawker shopping district, offering a variety of restaurants, bakeries, woolies, a bottle, chemist, medical center, it's all there for you! The City is just 15 minutes away and Belconnen just 5. The Belconnen district is serviced well with all levels of schooling, along with great ovals and green spaces to enjoy.
