Under Application

Nestled in a side street away from the main road is this spacious and solid 3 bedroom home with large lockup garage and good sized yard. A covered entry patio leads into a spacious wrap-around living and dining area adjoining the roomy kitchen with plenty of bench space, gas cooktop and electric oven. All three bedrooms have ceiling fans, two have air conditioning, and the main also has a walk-in wardrobe. Out the back is a large covered barbecue/entertaining area plus a double lockup garage in addition to the single lockup garage attached to the main house. The fully-fenced front and back yards have plenty of space for the kids or pets to play in. A gym and sports physiology studio are just around the corner, and it's walking distance or a short drive to the golf course, parks, beaches, a boat ramp and cafes.
