It's time to secure yourself the lifestyle you've been dreaming of, privacy, space, peace, and quiet whilst still being able to enjoy being at the coast with Long Beach only a short drive away. 4 Wirreanda Place is tucked away in such a quiet location that most people don't even know it is there. This tidy home is positioned set back from the street with its living areas facing out to enjoy the northerly aspect and overlook the private gardens. If you are looking for easy level acres this 2.5 acre parcel is a great choice and has plenty of room for parking caravans and boats or to add a large additional shed if that is your desire. As you walk through the home the cathedral ceilings and high windows bring in natural light and you will be hard pressed to see a neighbor looking out any of the windows giving you a feeling of being out of town. A generous sized master bedroom with walk-in robe will fit a king bed and the ensuite has a custom bath that looks onto its own private courtyard - inspired by holiday accommodation in Bali. The home is in excellent condition and has just had all carpets replaced. A large sunken lounge is featured in the central hub of the home with a wood fire and also opens out to the undercover entertaining deck. If you are looking for space, privacy and serenity this is the ultimate place for a 'tree change' call me today to find out more and ensure to add this to your inspection list!
