This property is the perfect spot for that quiet lifestyle you've been aiming for, with the new bypass not far away this suburb will not stay the affordable spot for long. Having two bedrooms, one bathroom and new flooring in bedrooms and living areas, painted throughout giving a new lease of life to the place. You will even feel that little bit of luxury when you're sitting in the enclosed spa bathroom looking out over your land and sipping on your champagne. Sitting on a 5052 m2 block with two bay shed and dam growing the veggies and being self-sufficient in this current climate will be a bonus. Is it time for you to get in the market? then this property is worth a look. Property Code: 1692
