\$790

The homes possess a “lake house” quality encompassing feelings of escape, retreat, enjoyment and closeness to family. Finishes are enhanced by the movement of light and water. Metal accents tie back to the industrial heritage in a contemporary way. Burnished finishes reflect the incredible sunsets that will be such a feature in living here. There are contrasting tones and textures, such as matt timbers against steel detailing, and natural or reconstituted stone benches. The bathrooms are relaxing retreats layering soft, natural finishes with textural tiles. We’ve created custom mirrored vanity storage units with open display shelves at either side to give them a personal quality. Even in the bedrooms, there’s beauty in the details. There are small discovery points for occupants to appreciate and delight in, such as the elegant walk-in or built-in robes where thought has gone into internal storage needs. Main Features Include ? Fully ducted airconditioning ? Carpet in bedroom and living areas ? Tiles in bathroom, kitchen and laundry ? Dishwasher ? Oven ? Dryer
